

Cavalluccio

Dimensions : cm. 258 x 86 x 107(H) - Weight : 280 kg. - Cleaning width : 85 cm

WALK-BEHIND machine, ideal for cleaning areas which require a very thorough cleaning but are not accessible to larger equipment (Beach areas, Golf course sand traps, Children's playgrounds, volleyball courts, etc.)

CLEANING EFFICIENCY : 1 400 - 3 200 sq.meters/hr (wet, humid and dry sand).

CLEANING DEPTH : adjustable from 0 to 10 cm by the operator while the machine is in use.

"VIBRATING SCREEN" SYSTEM to separate sand from debris and waste materials such as shells, cigarette butts, caps, cans, small bottles, glass splinters, stones, dry branches, algae, etc.

EASY INTERCHANGEABLE SCREENS : three, with meshes 4,5-8-12 mm.

WASTE BOX : 20 litres (extractable, for its easy emptying).

GASOLINE ENGINE : reliable, noise restricted, 5.5 HP HONDA (Fuel consumption: 230 g/HP/hr=Fuel tank capacity : 3.6 litres).

TWO SPEEDS FORWARD (km/hr. 2.4 & 4.0) + REVERSE GEAR.

HIGH FLOTATION RUBBER TIRES which provide excellent traction in sand but not harm grass or paved surfaces.

MANOEUVREABILITY is aided by independent brakes on each wheel and a differential lock assists in soft sand conditions.

ACCESSORIES ON DEMAND: *Front Scraper - Operator seat - Front wheel.*
