

## Best solution to oil & chemical pollution

### MAINTENANCE SPILL RESPONSE KIT

A wide range of universal (maintenance and repair) Spill Response kits to choose from. These absorbents are designed for spill responses involving non-aggressive liquids, such as oils, waters, coolants, solvents and water based fluids.

Application Areas are basically anywhere there is a leak, drip or spill, such as:

- Production/machine areas
- Under assembly lines or equipment
- Maintenance areas
- Liquid storage areas
- Machine Shop
- Walkways and traffic areas
- Boiler house
- Plant room
- In Workshops
- Under Print rollers
- General clean up

#### 120 LITRE OIL WHELLEY KIT

- 15" X 19" medium weight pads = 50 nos
- 18" X 18" Pillows = 5 nos
- 3" X 4' socks = 5 nos
- Nitrile gloves = 2 pairs
- Goggles = 2 pairs
- Disposal bags = 5 nos

**Total absorbency upto 140 ltrs**

120 litre capacity container, Injection molded from specially designed HDPE with 2 wheels.

#### 240 LITRE OIL WHELLEY KIT

- 15" X 19" medium weight pads = 100 nos
- 18" X 18" Pillows = 8 nos
- 3" X 12' socks = 5 nos
- Mini Roll = 1 nos
- Nitrile gloves = 3 pairs
- Goggles = 3 pairs
- Disposal bags = 10 nos
- Disposable coveralls = 2 nos

**Total absorbency upto 275 ltrs**

240 litre capacity container, Injection molded from specially designed HDPE with 2 wheels.

#### 360 LITRE OIL WHELLEY KIT

- 15" X 19" medium weight pads = 150 nos
- 3" X 8' socks = 5 nos
- 18" X 18" Pillows = 16 nos
- 15" X 75' Roll = 1 nos
- Nitrile gloves = 3 pairs
- Goggles = 3 pairs
- Disposal bags = 10 nos
- Disposable coveralls = 2 nos

**Total absorbency upto 522 ltrs**

340 litre capacity container, Injection molded from specially designed HDPE with 2 wheels.
